6) LIMITED:
there are no restrictions on use except for microwaves;
there are no limits in contact with food;

7) TEST REPORT n ° Q00085048a 001 of 12/05/2011
Operating conditions indicated in the DM 21/03/1973 art.37 for the assessment of suitability for objects intended for repeated use, of short duration at hot or at cold temperature, as they are the most severe conditions considered among those provided in section 1 of the annex IV: aqueous solution of 3% acetic acid at 100 ° C for 30 minutes. Three successive attacks are performed with determination of the specific migration of chromium and nickel on the transfer liquid from the third attack.
Results: the specific Chromium migration was lower than the maximum level (0.1 mg / l); the specific nickel migration was lower than the quantification limit of the adopted method. The sample is regulatory and without limitations of use with the exception of microwaves.

8) This declaration is drafted in compliance with the Regulation 1935/2004 / CE and the EU Regulation 10/2011 and is valid from the date shown at the bottom and will be replaced in the presence of substantial changes in the production of the material capable of changing some essential requirements compliance purposes or when the cited legislative references are modified and updated in order to require a new verification for compliance purposes.
